So that you may use less flour, we do what a home cook would do if she were in our place.

From every shipment of wheat delivered at our mills we take a ten pound sample. We grind this into flour. Bread is baked from the flour.

We find that some samples make more bread and better bread than others. So we keep the shipment from which the more and better bread comes. The others we sell.

You save money by using flour that bears this name. And you get Better bread.

"No more coffee for me. I am using Instant Postum and advise my patients to do likewise. I prefer it to the best coffee, and have no more sour stornach attacks as I used to."

Overwhelming Verdict A few months ago, a man in no way connected with the making of Postum or the marketing of tea and coffee, wrote to quite a number of Physicians asking their unbiased testimony in the case of Physician vs, Tea and Coffee.

"I drink Postum every morning, and recommend it to my friends who have 'nerves' and indigestion."

The following excerpts from their letters constitute an overwhelming verdict

For years I have been using Postum in the family and advocating it for my patients. I consider it to be exactly what its manufactures claim for it. Peat-um is excellent in place of ceffee where the latter is contrandicated. The food, value of Postum plays an important part when compared with coffee.

According to a recent article—"The Chemistry of a Cup of Coffee "—In the London (Eng.) Lancet, Tea and Coffee from a dietetic standpoint, are much alike, and are simply injurious, because both contain the alkaloid caffeine.

In the light of such testimony it would seem the part of wisdom to stop tea and coffee and use Postum.

Postum is a genuine food drink, made of whole wheat and a small percentage of molasses.

Contains the nutritious values of the grain, but is pure and absolutely free from the drug, caffeine, or upy other has mid: substance.

Postum comes in two forms

Postum has been used in my family agarly ever singe-I was placed on the market, and I recommend it to my patients. It is nourishing think. A great-many families are giving their children Postum in place of coffee with best of results.

Regular Postum - must be well boiled to bring out its fine flavor. 15c and 25c packages

Thursday, March 12 COMMENCING

We take pleasure in announcing the opening exhibition of Millinery, Dreis Goods, Suijs and Dressee, etc., etc., for the Spring and Summer Season, 1914. "This exhibition is certainly the most extensive and interesting we have ever held, and tells the complete fashion story for the coming season. Every department is filled to overflowing, with the cream of the world's best merchandse; and how could a forenoon or alternoon be better spent than by taking a trip through the store on opening days? YOUR PRESINCE IS CORDIALLY INVITED.

Commences Thursday, March 12, and continues Friday, Saturday, and the following week. The Millinery Parlors, 2nd Floor, will be the Centre of Attraction during Opening Days.

A Special Invitation to Visit the House Furnishing Department. In this department, on the third floor, 'you will find a very beautiful and extensive display of the new Rugs. Carpet, Draperies, Window Shades, Furniture Coverings, Lacc Cursins and Drass Goods.' We lavite, you to visit this department during the opening days.

The one word "thic" describs the new hats that we will place on display during opening days. Here you will find dozens of, disintictive and exclusive pattern hats which we imported direct from the largest fashion centres of the world, including Faris, London and New York. And not only these, but our own milliners have executed many stunning models, and have flooded the show rooms with some of the most artistic effects. Yisit the show rooms Thursday, and get a peep at these productions for pring and summer. They are beautiful. Paris Comes to You when Visiting Our Ladies' Ready-to-Wear Section

Mere words cannot express to you the elegance of the new Spring Dresses, Sulfs, Casts and Blouses. Here you will find the latest produtions direct from the largest style centres. They must be seen and handled to properly appreciate their beauty and worth. All of the new things will be ready for your inspection during opening days, and we would be pleased to have you see them.

Flour trial is essential butit is not your work!

Flour varies from time to time in baking quality. This is because wheat continually varies according to soil condi-tions, etc.

Therefore, if baking results are to be constantly high, baking tests are essential. It pure to make these tests at your expensé.

So from each shipment of wheat delivered at our mills we take a ten-pound sample. This is ground into flour. Bread is baked from the flour, If this bread is high in quality and large in quantity, we use the shipment. Otherwise we well it.

By simply asking for FLOUR bearing this name you can always be sure of more read and better bread.

mart Suits

We've Young Men's Ideal Suits, Suits that are Classy, Dashing and Distinctive.

Our Young Men's Suits have a swinging grace of form, with "Young Man" written all over their fashioning.

The long, soft rolling lapels...the graceful form fitting English cut of the Coat...the higher cut of the Vest, and the ease and grace of the trousers---with or without cuffs---are a few of the principal features of the New Spring Models.

There are many other new style kinks orked into these Suits by excellent and skillful tailoring.

The fabrics are entirely new and rather striking in effect. Our prices are moderate--they are always so!

mart Suits!

We've Young Men's Ideal Suits, Suits that are Classy, Dashing and Distinctive.

Our Young Men's Suits have a swinging grace of form, with "Young Man" written all over their fashioning.

The long, soft rolling lapels —the graceful form fitting English cut of the Coat —the higher cut of the Vest, and the ease and grace of the trousers --- with or without cuffs --- are a few of the principal features of the New Spring Models.

There are many other new style kinks orked into these Suits by excellent and skillful tailoring.

The fabrics are entirely new and rather striking in effect. Our prices are moderate-they are always so!

AND EVANGELIST

for Mine"

Many a man and woman with tea and coffee troubles has

nd that Postum is a sure and pleasant way back to health.

"I have been using Postum for the last seven or eight years, and think it has had a good deal to do with my look-ing younger than 55 years of age.

"It recommend it to all my patients, and those who have been using it have only praises for its tasts and its good effects on their nervous systems; like me they have given up ten and coffee altogether."

Postum is a pure food drink made of wheat and a small prortient of motasses—reasted and skilfully blended. It is absolutely fee from the druge, caffeine and tannin in tea and coffee—common causes of heart, stomach, liver, kidney and nerve disturbance.

Some people marvet at the benefits from leaving off tea and coffee and using Postum, but there is nothing marvellous a out it - only commod sense.

Instant Postum—a soluble powder, requires no boiling. A spoonful stirred in a cup of hot water makes a delicious beverage instantly. 80c and 50c.

The long, soft rolling lapels—the graceful form fitting Baglish cut of the Coat—the higher cut of the Vest, and the ease and grace of the trousers—with or without cuffs—are a few of the principal features of the New Spring Models.

The New Drink from London

HAVENT you wished again and again for a drink having the stimulating and cheering effects of alcohol, but without its intoxicating quality?—for a drink not sweet-and gassy, yet satisfying and thirst-quenching?—for a drink with a delightful flavor, full of character and distinction?—

O.T is the answer Q-T is non-alcoholic

Except as a liqueur, O.T. is taken, as a general thing, in combination with other beverages. It is added to other drinks; to improve their palate quality, Just said salt and sauce to our food, so should we add O-T to everything we drink.

"No matter what your drink may be, Always add a little O.T."

Blend like this:-

You can buy O-T from Wine Merchants, Grocers and Druggists, in bottle form—2 sizes, one holding 25 oz., and the other 12 oz.

Young Men

Classy Clothes!

The hardest port of Suits to provide successfully are the Suits for Dapper Young Dressers, who want the very limit in style!

We've met with great success in clothing these Young Fellows, because we study their wants. There is always a certain "distinguished." Classy" air about the cut and the style of our Young Men's Garments.

We Call The Attention Of Smart Dressers To Our New Spring Suits!

The styles may be called extreme, because they are extreme. Every idea or kink, that's new, is shown here, while the labrics and colorings are entirely new.

PRICES THAT ARE MODERATE

There's much to see here that's different, and our time is at the disposal of the Young Man who is "just looking" for his Spring Suit!

MEN OF TO-DAY-

Classy Clothes!

The hardest sort of Suits to provide successfully are the Suits for Dapper Young Dressers, who want the very limit in style!

We've met with great success in clothing these Young Fellows, because we study their wants. There is always a certain "distinguished" "classy" air about the cut and the style of our Young Men's Gurtnents.

We Call The Attention Of Smart Dressers To Our New Spring Suits!

The styles may be called extreme, because they are extreme. Every idea or kink, that's new, is shown here, while the fabrics and colorings are entirely new

PRICES THAT ARE MODERATE

There's much to see here that's different, and our time is at the disposal of the Young Man who is "just looking" for his Spring Suit!

MEN OF TO-DAY-

Classy Clothes!

The hardest sort of Suits to provide successfully are the Suits for Dapper Young Dressers, who want the very limit in style!

We've met with great success in clothing these Young Fellows, because we study their wants. There is always a certain "distinguished" "classy" air about the cut and the style of our Young Men's Garments.

We Call The Attention Of Smart Dressers To Our New Spring Suits!

The styles may be called extreme, because they are extreme. Every idea or kink, that's new, is shown here, while the fabrics and colorings are entirely new.

PRICES THAT ARE MODERATE

There's much to see here that's different, and our time is at the disposal of the Young Man who is "just looking" for his Spring Suit!

SAY to your friend the next time you ask him "to have something"-"Will you try a little O.T?" Or, if you are the one asked to have something, say "I'll try a little O-T."

And the reason for so saying is this:

O-T has the "bite," stimulation and satisfying body of alcoholic
liquors without the intoxicating and
reactionary effects of alcohol.

THE NEW DRINK FROM LONDON

As a cocktail or a liqueur O-T may be taken straight. But its general was as a drink-flavor. Used with ginger ale, lemonade, limo or grape juice; seltzer, Vichy or soda water; with Perrier or Apollinan; with sherry and witnes (excepting only champogue); with whiskey, brandy, gin, ale, beer, por stout, O-T1. most highly to be commended.

It improves the flavor of other beverages, just as sait or sauce when added to food improves its palate quality. Try O -T at 2. Clube. Hotels, Bara, Cales, Resignments and Fountains.

Classy Clothes!

The hardest sort of Suits to provide successfully are the Suits for Dapper Young Dressers, who want the very limit in style!

We've mef with great success in a clothing these Young Fellows, because we study their wants. There is always a certain "distinguished" "classy" air about the cut and the style of our Young Men's Garments.

We Call The Attention Of Smart Dressers To Our New Spring Suits!

The styles may be called extreme, because they are extreme. Every idea or kink, that's new, is shown here, while the fabrics and colorings are entirely new.

PRICES THAT ARE MODERATE

There's much to see here that's different, and our time is at the disposal of the Young Man who is "just looking" for his Spring Suit!
